4. Matters arising.

4.1. PP reported he had spoken to EA. They had received 58 calls relating to smell and noise during the period September/October. JD and PP are attending regular meetings with Saputo. However, the PC are not getting calls from the community as there is a feeling we are not achieving anything.

Saputo still have work to do. They estimate about 9 months before the work is completed.

The water quality in the river Inny has improved and is now well within permitted outfall. The EA are pleased with the progress made in relation to the river.

It was suggested Saputo put out another newsletter to let the community know where they are with the work.

It was asked how often is waste being removed by contractors to alleviate the problem?
